

Rainbow Man

Chris Norman

When the rainbow man came into town
And he looked for someone who was lost and down
And he thought he would find somebody here
It'll be a lonely girl with long blond hair

Rainbow man will take you to his rainbow land
Rainbow man will take you to his rainbow land
Rainbow man will take you to his rainbow land
Rainbow man will take you to his rainbow land
Rainbow man will take you to his rainbow land
Rainbow man will take you to his rainbow land

And the rainbow man he found the one
She was my girl till the day he had come
She was exactly what he hoped to find
From the day he came she was no longer mine

Rainbow man will take you to his rainbow land
Rainbow man will take you to his rainbow land
Rainbow man will take you to his rainbow land
Rainbow man will take you to his rainbow land
Rainbow man will take you to his rainbow land
Rainbow man will take you to his rainbow land

So when a rainbow man comes to your town
And he looks for someone who's lost and down
Maybe you find your girlfriend there
Maybe she's a girl with long blond hair

Rainbow man will take you to his rainbow land
Rainbow man will take you to his rainbow land
Rainbow man will take you to his rainbow land
Rainbow man will take you to his rainbow land
Rainbow man will take you to his rainbow land
Rainbow man will take you to his rainbow land

And I know she will go with him
I know she will go with him
I know, know, know, she will go with him
Take you to his rainbow land
Take you to his rainbow land
Take you to his rainbow land
And I know she will go with him
I know she will go with him
