

# Run From The Shadows

Chris Norman

You don't want my love tonight  
You don't want my heart  
I gave to you so freely from the start  
You're happy with another now  
And safe within his arms  
You fall in love so easily  
You gave yourself completely  
To his charms

You better run from the shadows  
Run from the shadows  
You better watch out  
And run from the shadows of his love  
You better run from the shadows  
Run from the shadows  
'Cos he's gonna make a fool of you  
You better watch out  
And run from the shadows of his love  
I said run from the shadows of his love

Well he can buy you fancy clothes  
And spend his money too  
But he could never love you like I do  
You act like you're so confident  
You will never learn  
That if you want to play with fire  
Well don't you know that someday  
You'll get burned

You better run from the shadows  
Run from the shadows  
You better watch out  
And run from the shadows of his love  
You better run from the shadows  
Run from the shadows  
'Cos he's gonna make a fool of you  
You better watch out  
And run from the shadows of his love  
I said run from the shadows of his love
