

# Stay

Chris Norman

Don't you make me cry baby, don't you ever leave me  
Losin' you tonight takes me from heaven to hell  
Dyin' is the final farewell  
Even if you tried your heart never could deceive me  
It will hurt my soul if you keep tellin' me lies  
Love is more than tears in my eyes

Touch my hand let us do it all again  
Hold me tight when I feel abused  
Baby stay with me, let the fire burn tonight

Touch my skin lovin' you is not a sin  
Baby I've got more than dreams to lose  
Don't you go away baby, don't you blow out the light  
Oh baby please stay, don't close the door forever  
Stay - we will share the dream together  
Stay - baby if you leave me I will never ever take you back again

She is on your mind I can see it in your blue eyes  
Baby I'm so sure she's only waiting for you  
Tell me what you want me to do  
I'll do what you want, don't you keep on tellin' new lies  
I just wanna know if she has taken control  
Baby don't you love me at all

Touch my hand let me feel it all again  
Let me know you are mine to choose  
Cause I want you so, baby I don't wanna fight

Touch my skin lovin' you is not a sin  
Baby I've got more than dreams to lose  
Don't you go away baby, don't you blow out the light  
Oh baby please stay, don't close the door forever  
Stay - we will share the dream together  
Stay - baby if you leave me I will never ever take you back again
