

Wheels Of Fire

Chris Norman

Faces are fading like shadows they're showing
All the pain hiding in the night

But then you spoke a little words of love
Everything that i desire
And you spoke a little words of love
And i'll never gonna stop the fire

Wheels of fire gonna burst my heart
But i'll never show how much i love you
Wheels of fire gonna burn it down
'Cause you'll never know how much i love you

Burning' like a wheel of fire
Like your taste on my lips
touch of your fingertips
That'll ease the pain and i'll forget the fire

But then you spoke a little words of love
Oh everything that i desire
Then you spoke a little words of love
And you're never gonna stop the fire

Wheels of fire gonna burst my heart
But i'll never show how much i love you
Wheels of fire gonna burn it down
'Cause you'll never know how much i love you

Burning' like a wheel of fire
How much i love you
Burnin' like a wheel of fire
Oh i'm burning like a wheel of fire
Wheels of fire gonna burst my heart

But i'll never show how much i love you
Wheels of fire gonna burn it down
'Cause you'll never know how much i love you

Burning' like a wheel of fire
How much i love you
Burnin' like a wheel of fire
Oh i'm burning like a wheel of fire

Burning' like a wheel of fire
How much i love you, ohhh
Burnin' like a wheel of fire
Oh i'm burning like a wheel of fire

Burning' like a wheel of fire
How much i love you
Burning' like a wheel of fire
Oh i'm burning yes i'm burning ...
