

# Easy Rider

Chris Rea

Well now come on easy rider  
Give me something  
For my pain  
Well now come on easy rider  
Though I know you're not to blame

The dogs are out to get me  
And pull me down, again

Well now come on easy rider  
Turn this screaming fire  
Down low  
Yeah come on easy rider  
Pull this pain  
And let it go

This time around  
Don't think that I can take it  
This twisting pain  
I've come to know  
Easy rider  
Help me  
Easy rider
