

# Electric Memphis Blues

Chris Rea

Caught the midnight train  
I go hustling through the night  
I caught the midnight train  
I go hustling through the night  
Gonna jump off north of Memphis  
When my hometown's out of sight

They say there's only the Devil waiting  
In the big city way up there  
They say there's only the Devil waiting for me  
In the big city way up there  
What they don't seem to know  
What I been through  
I just don't care, no

Gonna get me one of them  
Shiny new electric guitars  
I'm gonna get me one of them  
Shiny new electric guitars  
All my best friends say  
Well, that's how they're gonna know who you are

Electric Memphis  
Electric Memphis Blues  
Electric Memphis  
Electric Memphis Blues  
Electric Memphis  
See me coming through
