

# Head Out On The Highway

Chris Rea

Head out on the Highway  
I've gotta lose these country blues  
Head out on the Highway  
I've gotta lose these country blues  
Ain't nothing for me here no more  
Ain't nothing I can do

I was bad with my woman  
She took up and flew away  
I was bad with my woman  
She took up and flew away  
Now she gone and left me  
Got no reason for to stay

I went back to her doorway  
But she would not let me in  
I went back to her doorway  
But she would not let me in  
Now she knows I was cheating  
It's a game I cannot win  
Head out on the highway
