

## New Way

Chris Rea

I go to work in a bubble  
I got everything I need  
I get so high on no trouble  
It's a great feeling, being free

I say a prayer at thanksgiving  
I bless the night and the day  
I look up to the sky with a smile on my face  
And I praise the lord of the new way

The sweetest sound I ever knew  
Was the sound of reason falling  
Like the summer rain  
And the truth washed the pain away  
New way

I don't watch tv anymore  
Don't need to see it now we all know the score  
And all the politicians know what they're there for  
It's a new way  
New way
