

## Nashville, TN

Chris Stapleton

I met you when I had a dream  
Not so long ago, it seems  
We closed down a million bars  
Yeah, you and me, we've come so far  
You showed me how to write a song  
We wrote some right, we wrote some wrong  
I was down and out, you let me in  
At times you were my only friend

So long, Nashville, Tennessee  
You can't have what's left of me  
And as far as I can tell  
It's high time, I wish you well  
You build me up, you set me free  
You tore down my memories  
So you be you and I'll be me  
So long, Nashville, Tennessee

Now you won't miss me when I'm gone  
You're custom made for movin' on  
And time to time I'll pass you by  
Face that I don't recognize  
And who knows? Maybe years from now  
You'll be the one I think about  
But I just can't imagine that  
'Cause I'm not one for lookin' back

So long, Nashville, Tennessee  
You can't have what's left of me  
And as far as I can tell  
It's high time, I wish you well  
You build me up, you set me free  
You tore down my memories  
So you be you and I'll be me  
So long, Nashville, Tennessee

So long, Nashville, Tennessee  
You can't have what's left of me  
And as far as I can tell  
It's high time, I wish you well  
You build me up, you set me free  
You tore down my memories  
You're not who you used to be  
So long Nashville, Tennessee
