

# When I'm With You

Chris Stapleton

I'm forty years old  
And it looks like the end of the rainbow  
Ain't no pot of gold  
The things that I've done  
I doubt anyone will remember  
After I'm gone

The places I've been  
There's some I'd go back to  
And some where I won't go again  
And most of the time  
I'm feelin' like I'm fadin' into the night

But when I'm with you  
I feel like a dreamer  
That's had all his dreams come true  
Like my skies are all blue  
When I'm with you

I got a good job  
And I'm thankful to be workin'  
When so many good people are not  
Sometimes I can't stand  
How my back and my hands  
They won't work like they used to

Somewhere in my mind  
I'm still searchin' for something  
I know that I'm not gonna find  
When I know for sure  
I've got so much more  
Than a man ever needs

But when I'm with you  
I feel like a dreamer  
That's had all his dreams come true  
Like my skies are all blue  
When I'm with you

I'm forty years old  
And it looks like the end of the rainbow  
Ain't no pot of gold
