

In From The Outside

Chris Trapper

Stay with me for a thousand years
'til our mistakes wash away my dear
When sweet Maria is by my side
Like a river I'm open wide

Ooh my dreams
Are calling me
To come inside from the outside now
Wasted my time
Standing in line
I'll come inside from the outside now

Stay with me 'til the end of time
Feel your heart beating next to mine
Life your gates up and feel my flood
Sweat on sweat and blood on blood

Ooh my dreams
Are calling me
To come inside from the outside now
Wasted my time
Standing in line
I'll come inside from the outside now

Breathe your last breath and I will die
Just let my last wish be satisfied
Bury Maria right by my side
Dust and bones intertwined

Ooh my dreams
Are calling me
To come inside from the outside now
Wasted my time
Standing in line
I'll come inside from the outside now
