In From The Outside

Chris Trapper

Stay with me for a thousand years 'til our mistakes wash away my dear When sweet Maria is by my side Like a river I'm open wide

Ooh my dreams Are calling me To come inside from the outside now Wasted my time Standing in line I'll come inside from the outside now

Stay with me 'til the end of time Feel your heart beating next to mine Life your gates up and feel my flood Sweat on sweat and blood on blood

Ooh my dreams Are calling me To come inside from the outside now Wasted my time Standing in line I'll come inside from the outside now

Breathe your last breath and I will die Just let my last wish be satisfied Bury Maria right by my side Dust and bones intertwined

Ooh my dreams Are calling me To come inside from the outside now Wasted my time Standing in line I'll come inside from the outside now
