

## Feel Like

Chris Travis

I just feel like  
I just feel like, I don't got no where to go  
I just feel like, there are people I should know  
I just feel like, every girl ain't a ho  
I just feel like, all these niggas fucking jokes  
I just feel like, I got money but I'm broke  
I just feel like, I'm on top I'm a pope  
I just feel like, throwing up off these drugs  
I just feel like, I need a kiss and a hug  
I just feel like, I should never get drunk  
I just feel like, I don't ever need a gun  
I just feel like I'mma make her pussy run  
I just feel like, I just do this shit for fun  
I just feel like, niggas don't fuck with me  
I just feel like, moving out of the city  
I just feel like, my ex is so petty  
I just feel like, my new bitch is so ready  
I just feel like, paper ain't comin steady  
I just feel like, that this song is so heavy  
I just feel like, I can fuck already  
I just feel like, all these bitches so silly  
I just feel like, that I'm supposed to be on  
I just feel like, rappers can't write these songs  
I just feel like, ya'll don't know what I'm on  
I just feel like, only I can make a song  
I just feel like, smoking blunts not a bong  
I just feel like, my brain cells fucking blown  
I just feel like, I don't need to go to school  
I just feel like, fuck a collage and some rules  
I just feel like, watching fucking cartoons  
I just feel like, taking off on some shrooms  
I just feel like, I'm the realest in the room  
I just feel like, that I gotta stay in groove  
I just feel like, that most ain't cool  
I just feel like, a lotta people hate  
I just feel like, ya'll people can't relate  
I just feel like, ya'll can't congratulate

And you feel it when she drill it I'm so real and she know I be  
drilling she be know I be killin she know I be peelin all thes  
e niggas I am realer you a bitch. ya'll ain't got vocals like c  
hris ya'll can't do this shit like chris ya'll can't rap on bea  
t like chris ya'll can't freestyle like kenshin ya'll witness y  
a'll witness. this homicide
