

Fuck The World

Chris Travis

It's fuck the world my nigga, it's fuck the world
All I got is myself my nigga, it's fuck the world
Me versus the world my nigga, it's fuck the world
All I got is my family, so motherfuck the world
Never talk to a stranger nigga, it's fuck the world
Don't sell dope to a random nigga, it's fuck the world
Don't give up on your dreams nigga, it's fuck the world
Just let yo' soul gleam nigga, it's fuck the world

Everybody gon' talk boutcha, so fuck the world
But they don't really care about ya', so fuck the world
The whole world built on money fuck the world
Nobody gon' take my pride from me fuck the world
Nobody gon' take my life from me fuck the world
All I got is love and my word, motherfuck the world
Fuck how they feel about me they could never be around me
All these fake ass people make the whole world cloudy
Nigga fuck the world!

They all telling lies, will we ever rise
Do we run our time, we all bound to die
Everybody sins, you have no real friends
Will this place ever end, let's all bow our heads
