

Her Lullaby

Chris Travis

Shawty wanna sleep girl you can stay the night
Mind on me I can see it in your eyes
Falling in my dreams with me up just in time
Sayin' a bolomy when you tell me

Shawty wanna sleep girl you can stay the night
Mind on me I can see it in your eyes
Falling in my dreams with me up just in time
Sayin' a bolomy when you tell me

Say me in your dreams baby girl I'm that guy
I know I make it weak but I'm here to clear your mind
Man hit the roof as is falling from the sky
Candles leave burning in the dark don't know why
Blunts getting burnt by the hour of the time
Man I can't wait to get a hour of my time
Man I can't get a hour just to shine
Shotout to my momma and my family on the grind

Shawty wanna sleep girl you can stay the night
Mind on me I can see it in your eyes
Falling in my dreams with me up just in time
Sayin' a bolomy when you tell me

Shawty wanna sleep girl you can stay the night
Mind on me I can see it in your eyes
Falling in my dreams with me up just in time
Sayin' a bolomy when you tell me
