Chris Travis

[Chris Travis:]

I got water on me, baby right now
I can feel your heart beat steady right now
Tell me is you ready for me, right now
Will you be my mermaid with me, right now

I got water on me, baby right now
I can feel your heart beat steady right now
Tell me is you ready for me, right now
Will you be my mermaid with me, right now

[Bones:]

Tell me what you need
Don't you tell me how you feel
Tell me what you dream
Baby I can make it real
Tell me how your nightmares end, with you waking up
Tell me how your nights get spent when you're all alone

Tell me what you need
Don't you tell me how you feel
Tell me what you dream
Baby I can make it real
Tell me how your nightmares end, with you waking up
Tell me how your nights get spent when you're all alone
