

Move In Silence

Chris Travis

Boy I watch how these niggas move
Christian Dior be my shoe
Angels with me when I move
I'm higher to my gratitude
She say "I can't stand you"
What have we became too?
Baby I am strange too
New page in my brain too
Thugging with my same crew
He switch up his butler do
I stay down like bitches do
Fuck about a three or two
Bitch I cannot be with you
I do not believe in you
It's crazy but that shit be true
I can't be played like a fool
New place I just bought a coupe
New place I can't tell is who
Bitch I'm living in the zoo
Black hoes white hoes asians too
Let 'em up and give a room
I do not play by the rules
Wake up and I'm pushing vibes
Wake up and I'm getting high
Throw my arms up reach the sky
I can't fuck with [?]
Know they talk is telling lies
Guess who up and now we grind
Know these niggas ain't gonn' ride
That's why I be moving silent
Batman bitch I am the pilot
Fuck her on a private island

Fuck her on a private island
Fuck her on a private island
Fuck her on a private island
Ayy, fuck her on a private island
