

# Red Roses

Chris Travis

Allow me to tell you a story, that starts far far away  
Just like any other story  
But the difference between this story and every other story  
Is that this one ends with a broken heart

Gon' tell your nigga fuck 'em if he ain't about shit  
Gon' tell your friends nigga they ain't bout shit  
All I hear is this and that, ain't nobody about shit  
Ain't nobody tryna get it till a nigga get rich  
Phones call from a bitch, that I never really miss  
Two rubbers in my pocket cause one might rip  
Lot of 1's on me, so the tip can get a tip  
Give you acid bring you home, that's a trip for a trip I ain't really gon tr  
ip, cause I got a lot of money  
Ain't shit popping when the day ain't sunny  
Everyday is just dark, while I'm sitting in my room  
Thinking deep, in my mind, like I had a case of shrooms But there's images o  
f you, in the hotel room  
She's been looking like she just went through a typhoon  
Woke up in the morning didn't even press snooze 6AM deep in that pussy too s  
oon

We ride thru the town, and we smile and we riding  
Drugs in our bodies it's only for one night bitch  
Ride thru the town, and we smile and we riding  
Drugs in our bodies it's only for one night bitch

Last night was the shit, had to tell you about that  
How I met you at a party you was on Xanax  
Probably didn't even remember, I was high as fuck too  
Life just become memories way too soon  
But we did what we did and I do what I do  
Don't blame it on the drugs, cause we know that's ain't the truth  
Shit happened for a reason, had to jeopardize the proof  
When you drunk that shot your ass already knew

Got a lot of shit to say, just been on my mind  
But my flights at 9, so I'm running out of time  
What the fuck you gon do? Is you ready for this life?  
Would you give it all up if everything goes right  
I'm tell you like this nigga don't look back twice  
Real nigga right here, in a mothafucking cyph  
You can be in the dark just reach for the light  
Niggas gonna get mad, but at least you all right  
Blunt straight to the face, nigga that's all night  
I'ma get my money, nigga that's all right I'ma be rich soon, nigga that's on  
me  
Don't worry about me because if you worried about heat  
Then your life fucked up nigga that's on me  
Wish my niggas good luck, waterboyz overseas  
Waterboyz in the sea, fuck nigga fuck with me  
The whole squad everywhere, everything we redeem

We ride thru the town, and we smile and we riding  
Drugs in our bodies it's only for one night bitch  
Ride thru the town, and we smile and we riding  
Drugs in our bodies it's only for one night bitch

We ride thru the town, and we smile and we riding  
Drugs in our bodies it's only for one night bitch  
Ride thru the town, and we smile and we riding  
Drugs in our bodies it's only for one night bitch
