

Seen A Ghost

Chris Travis

Word around the town, I'm so motherfucking icy
Word on the town, all these bitch niggas don't like me
Word on the town, she got my name in her mouth
Word on the town, all these niggas 'bout to drown

Aye, smoking dope
Think I seen a ghost
Let's be friends
Can't nobody know
Fucking hoes
Take away they phone
Tryna snap shit
All up in my home

Bitch get ghost
I don't know
I get tickets
For a show
You ain't got it
The answers know
Pussy niggas
Ain't gon' blow

Know you been missing me missing me
All of my music is history
All of these bitches is feeling me
Acting like you ain't heard of me
Stop it boy
Need to go play with your pocket toys
Been a real nigga since Rocket Power [?]
Fake niggas dying out by the hour
Stood up I stood up I stood up
Nigga you're running with pushers
All of my niggas eat good
All of my niggas eat better
She know that I get her wetter
It's summer but I'm rockin' sweaters
'Fore you know I do whatever
I know I put it together
I know one day cannot settle
You niggas average like Cs
You gonna need a plan B
If you think you fucking with me
Send me my muhfuckin' pack
Send me my muhfuckin' pack
Send me my muhfuckin' pack
Send me my muhfuckin' pack

Smokin' dope
Think I seen a ghost
Let's be friends
Can't nobody know
Fucking hoes
Take away they phone
Tryna snap shit
All up in my home
