

Take You There

Chris Travis

If you wanna go
Please just let me know
Imma take you there
You will disappear
You can't fuckin win
Caught the snitcherist
I am the misfit
I will not pretend bitch
I see these hoes
They already know
Pull up with my friend
Tell yo hoe get in
I know what you don't
Don't tell me you what you knew
Don't fuck with nobody
I can't let her harm me
Say might hit yo face boy
Now you are erased boy
I don't know your friends boy
But they can get the fist too
I know we can't vouch for you
You ain't at my altitude
Pull up with a bomb (explode)
Any mother fucker
