

# The Bad Side Of Me

Chris Travis

I walk into the building then I shake it up  
Bitch, I'm from Memphis  
I don't give a fuck  
Hit me when it's time hope you got enough  
Bitches steady drownin in the sea of lust  
Pull up to the hood and they say what's up  
Kenshin up in Cali, hope you take it up  
I don't fuck with niggas, they be taking stuff  
And I don't fuck with bitches they be breaking trust  
About myself nigga, fuck who you is  
But I still know some niggas that will break some shit  
And I'ma do whatever fuck the consequence  
Stand up on your own nigga common sense  
Niggas wanna bite my flow hope your tongue is slick  
Ain't invited after shows unless you fuckin bitch  
I'm a asshole yes I know  
Fuck it let's get fucking rich  
When niggas can't get they way that's when they up and switch  
That's why I'm always on alert and never missin shit  
And I don't care about no haters cause I ain't ya bitch  
I'm smokin in a castle feelin like a Prince  
I'm shoppin like a woman with a million bricks  
Mornin time, baby smoke a blunt and sit  
He talkin down, bet he mad I plugged his bitch  
She was ridin, swervin through the fuckin six  
I fucked your bitch it's too late if you listenin  
Kenshin Travis bitch I'm making history  
Listen to my music see it vividly  
Niggas be rapping false imagries  
Diamonds for my bitches, bullets for my enemies  
I don't fuck with you niggas ain't friend to me  
You wasn't with me back in 93' in Tennessee  
Call up my pops cause we barely speak  
Fresh up out the state when I was just thirteen  
Put some money in my face and watch me take it clean  
Tryna stumble in my way and watch me break your lead  
Niggas keep on talking like they fighting mean  
Bitch I'm breaking hearts don't know what wifin mean
