

# The Only Option

Chris Travis

[Kenshin:]

Say you got it, say you with it  
You ain't with it you too friendly  
I'm the whole, you the mini  
Doing shows major digits  
We control every penny, we control every city  
Oh yes independent follow up how we did it  
Left to right these rappers fakers  
Smokin I don't save much  
I'm smart and I'm dangerous  
Two things you can't tame much  
I can't see you haters, my vision is outrageous  
I mark out imitators and don't like imitation  
Baby girl you ain't shit  
Baby girl just face it  
Sparkin up I'm faceless my life livin the latest  
You thought I wasn't gon' make it  
But you still on the same shit  
I am my entertainment  
Don't need your entertaining

[Xavier Wulf:]

Bitch we started off in Memphis  
Bored as fuck, tryna picture shit  
Now we out in Cali near the Valley smokin tree sticks  
I be by myself, thinking fast but with more cleaner mist  
They say why you mad I said I ain't, I just ain't doing shit  
Ima move forward like its what my only option is  
Pull up to yo city watch him pull up with they tickets quick  
I love my supporters, fuck a fan cause there's a difference  
Why he tryna flex that Fadar article don't pay for shit

Say you got it, say you with it  
You ain't with it you too friendly  
I'm the whole, you the mini  
Doing shows major digits  
We control every penny, we control every city  
Oh yes independent follow up how we did it  
Bitch
