

They Like

Chris Travis

They like where you go now
I see you gettin checks now

They like where you go now
Everywhere you show out
See you living nice now
See you eating right now
I just want to go down
I just want to go now
Take me away now
Break me away now

See me with my cash now
Tatted from my neck down
Fuck they looking at now
See they getting checks out
Probably cop a Vette now
Just to let the top down
Kenshin on the block now
Just to put some spots down
Tell that bitch drop down, pussy to the ground
I'm a real young nigga straight from the south
Watch her break it down
Watch her break it down

Pussy nigga pop the trunk
If you broke, I will jump
Then I stomp
Leave you drunk
Now you fucked
Trying to talk a lot of shit
But that shit got you stuck
And no, I don't give a fuck and
I just want some love, aye
I just want to fuck, aye
Baby like my feng shui
Be my Beyonce
Put you on a runway
Love that I'm country
Burning like a sun ray
See her every sunday
Never leave my mind bae

They like where you go now
Everywhere you show out
See you living nice now
See you eating right now
I just want to go down
I just want to go now
Take me away now
Break me away now
