

Baby watch the skies go grey as I float
Drink me some water while I drown in the smoke
I just want to hold down, don't let go
Will you be with me for a while, let me know

Baby watch the skies go grey as I float
Drink me some water while I drown in the smoke
I just want to hold down, don't let go
Will you be with me for a while, let me know

Smile in my face
I just hope that its real
I just want to go to a place I can chill
Tell me how it is, I don't know how to feel
Living in my dreams
Swear, my life so surreal
Sorry if I ever don't need you appeal
Everything I touch always seem unreal

Baby watch the skies go grey as I float
Drink me some water while I drown in the smoke
I just want to hold down, don't let go
Will you be with me for a while, let me know

Baby watch the skies go grey as I float
Drink me some water while I drown in the smoke
I just want to hold down, don't let go
Will you be with me for a while, let me know

Smile in my face
I just hope that its real
I just want to go to aplace I can chill
Tell me how it is, I don't know how to feel
Living in my dreams
Swear, my life so surreal
Sorry if I ever don't need you appeal
Everything I touch always seem unreal
