

Water Party

Chris Travis

She be pulling up
She screaming let's go party
I'm smoking my blunt
I'm not feeling sorry
Been down since 01
You just know this hardly
All I want is money
It make me happy sorry

I be going up
Can't nobody stop me
True like 101
I'm a fucking artist
Stacking all these hun's
Don't need my kids at swap-meets
All I need is you
These other people know me

Making all these bands
Breaking all these grams
Leave the weapon
Kenshin, I don't need protection
Oh yea know I got your back
Know I keep my word
Know I state my facts
And know I keep my herb
Know I never slack
Don't know? Now you heard
Know I got your back
And know I keep my word
Know I state my facts
Know I keep my herb
Know I never slack
Don't know? Now you heard

She be pulling up
She screaming let's go party
I'm smoking my blunt
I'm not feeling sorry
Been down since 01
You just know this hardly
All I want is money
It make me happy sorry
