Can't Get Off

Chris Whitley

I ain't got no pride in my pants I ain't got no poise or plans Hear me out with your hands

It's nothing major, sister I can't get off Yeah, nothing major

I ain't got no acid love Ain't got no problem to solve I'm doing my best to dissolve

Well, it's nothing major, sister I can't get off I can't hang out, sister I can't get off

I been watching it go by Well, I been gone so long [Incomprehensible]

Entertain religion of law Slave morality and the norm You know it I'm doing my best to conform

Well, it's nothing major, sister I can't get off It's nothing major, sister I can't get off

But I been watching it go by Well, I been gone so long I want to hear the new word now, now, now

I been watching it I been watching it go by I been gone so long I want to hear the new word now, now I can't get off
