

## Save Water, Drink Beer

Chris Young

It ain't rained in four months  
One cigarette spark'll burn the whole town up  
That ole well is plum dry  
City put a limit on the water you can buy  
We don't mind cause round her  
We save water, and drink beer

Ice cold, genuine, raise 'em up, drip 'em dry  
Hollar and Swaller ya'll support your local wildlife  
Do your part around here  
Just save water, and drink beer

We're going green hey look at us  
We're maybe even doing just a little too much  
Poppin' tops, getting' tans  
And that's the price we'll pay  
Til the long drought ends  
We help the world 'round here  
We save water, and drink beer

Ice cold, genuine, raise 'em up, drip 'em dry  
Hollar and Swaller ya'll support your local wildlife  
Do your part around here  
Just save water, and drink beer

Drink beer

Volunteer, we'll start tonight  
Plant a seed, and tell friends  
They got to drink a little

Ice cold, genuine, raise 'em up, drip 'em dry  
Holler and Swaller ya'll support your local wildlife  
Do your part around here  
Just save water, and drink beer

Say it loud, say it clear  
Save water, drink beer
