Save Water, Drink Beer

Chris Young

It ain't rained in four months One cigarette spark'll burn the whole town up That ole well is plum dry City put a limit on the water you can buy We don't mind cause round her We save water, and drink beer

Ice cold, genuine, raise 'em up, drip 'em dry Hollar and Swaller ya'll support your local wildlife Do your part around here Just save water, and drink beer

We're going green hey look at us We're maybe even doing just a little too much Poppin' tops, getting' tans And that's the price we'll pay Til the long drought ends We help the world 'round here We save water, and drink beer

Ice cold, genuine, raise 'em up, drip 'em dry Hollar and Swaller ya'll support your local wildlife Do your part around here Just save water, and drink beer

Drink beer

Volunteer, we'll start tonight Plant a seed, and tell friends They got to drink a little

Ice cold, genuine, raise 'em up, drip 'em dry Holler and Swaller ya'll support your local wildlife Do your part around here Just save water, and drink beer

Say it loud, say it clear Save water, drink beer
