

# Let Me Go

Christian Kane

They were sitting on his tailgate  
And she was loving on his roughneck  
And she was talking about running away  
And he was puffin' on his cigarette  
Just thinkin' (huh)  
"How am I gonna say goodbye?"  
He said, Girl you got it good here  
And you don't need to mess with  
A guy going nowhere  
She said how's about Texas?  
Then he said, Ain't you been listening?  
It's never gonna work out  
And I think it'd be a good time now to  
Let me go  
You don't need me baby  
Stop holding on the way you are  
Don't you know I'm no good for you  
And it'll only break you heart  
If you don't  
Let me go  
He said other than a dreamer  
I ain't nothing but a drifter  
You could do a lot better  
Then he leaned over and he kissed her  
He said you got another year of college  
And a good momma and a daddy  
And me, I got \$93 and this old '82 Chevy  
So let me go  
You don't need me baby  
Stop holding on the way you are  
Don't you know I'm no good for you  
and it'll only break your heart  
If you don't  
Let me go  
She said, nice try  
But you can't hide behind those shades there on your  
face  
Ya see I don't think you're all that tough  
I just think you're scared of love  
And I think I won't take up that much space  
So let me go  
Take me with you baby  
I belong where you are  
We both know that you're not as strong as you think you  
are  
Let me go  
Take me with you baby  
I belong where you are  
Don't you know I'm so good for you  
And it'll only break your heart  
Down the road  
If you don't  
Let me go  
With you baby  
Let me go  
With you baby  
Let me go
