

Pretty As A Picture

Christian Kane

Pretty girl on every corner
Sunshine turns the sky to gold
Warm warm, it's always warm here
I can't take the cold

Streets littered with diamonds
Every one's glistening
This whole world shines so brightly
I can't see a thing

Pretty as a picture
Seems like a golden rain
Settles me with love and laughter
I can't feel a thing

The sky's gonna open
People gonna pray and crawl

It's gonna rain down fire
It's gonna burn us all

The sky's gonna open
People gonna pray and sing

Oh, I can't feel a thing

Pretty as a picture
She is like a golden dream
Fills me with love and laughter
And I-I I can't feel a thing

The skys gonna open
People gonna pray and crawl

It's gonna rain down fire
It's gonna burn us all

The sky's gonna open
People gonna pray and sing

And I can't feel a thing

Oh, I can't feel.
