Pretty As A Picture

Christian Kane

Pretty girl on every corner Sunshine turns the sky to gold Warm warm, it's always warm here I can't take the cold

Streets littered with diamonds Every one's glistening This whole world shines so brightly I can't see a thing

Pretty as a picture Seems like a golden rain Settles me with love and laughter I can't feel a thing

The sky's gonna open People gonna pray and crawl

It's gonna rain down fire It's gonna burn us all

The sky's gonna open People gonna pray and sing

Oh, I can't feel a thing

Pretty as a picture She is like a golden dream Fills me with love and laughter And I-I I can't feel a thing

The skys gonna open People gonna pray and crawl

It's gonna rain down fire It's gonna burn us all

The sky's gonna open People gonna pray and sing

And I can't feel a thing

Oh, I can't feel.
