

What My Heart Says

Christian Kane

Yeah,
So let them say it's wrong
For me to love you.
They could never feel
The way that I do
When we kiss,
When we're close like this.

They can't see inside my soul.
They don't know the love we know,
All they do is waste their time
They can never change my mind.

It's what my heart says-
That is what I listen to.
It's what my heart feels-
That tells me, it tells me what to do.
It's what my heart knows-
And that's the only, only truth I know is real.
All I know is what my heart says to me.
