Never Be Afraid Again

Christian Walz

I won't breathe you now, I won't let you take me down To your underworld, to your underworld, I will follow thee, rising bubbles to the sky Like a melody, like a melody...

I will never be alone, this could be my other home

I will never be afraid again, hold your breath then count to te $\ensuremath{\mathbf{n}}$

Stay for silence, stay for when I will never be afraid again No I'll never be afraid, close your eyes and count to ten Stay for silence, stay for when I will never be afraid again

It's a sudden change, from the surface to below It's a different town, but you've got underground You used to SOS, when you know you gonna drown Try to stay alive, surrender to survive...

I will never be alone, this could be my other home

I will never be afraid again, hold your breath then count to te $\ensuremath{\mathbf{n}}$

Stay for silence, stay for when I will never be afraid again No I'll never be afraid, close your eyes and count to ten Stay for silence, stay for when I will never be afraid again

Find a light above the sea (oh no), cross your heart and follow me

Imagine how it all could end, imagine how it all could be

I will never be afraid again, hold your breath then count to te $\ensuremath{\text{n}}$

Stay for silence, stay for when I will never be afraid again No I'll never be afraid, close your eyes and count to ten Stay for silence, stay for when I will never be afraid again
