

Coming Home Tonight

Christie

The moon is big and bright
To guide me in the night
So light the candlelight
I'm coming home tonight
I'm coming home tonight
Be sure to wait for me
Don't know how late I'll be
I'll think of you tonight
I'm coming home tonight
I'm coming home tonight

I've been gone a long time away
I don't think I'm gonna leave you again
I don't know if things have changed
I just hope that everything is the same

So light the lamp tonight

And keep it shining bright
It's gonna be alright
I'm coming home tonight
I'm coming home tonight

I've been watching the hours fly
I've been waiting for this day to arrive
Baby I think of you night and day
Now I'm back and I ain't gonna leave you again

Be sure to wait for me
Don't know how late I'll be
I'll think of you tonight
I'm coming home tonight
I'm coming home tonight
