

Country B. Sam

Christie

I never thought I could meet such a man
He never speaks but I know that he can
He makes his money this way:
Gives it all away
He makes money like fools make trouble that way

Country Sam's a superman
Always does the best he can
People think he's just a fool
But I know better now

He helped me when he knew I was down
He picked me up just as I hit the ground
Well I couldn't refuse
He knew what to do
I felt happy and then I suddenly knew

Country Sam's a superman
Always does the best he can
People think he's just a fool
But I know better now

Even when I'm feeling insecure
Suddenly I see him and he opens up the door

Country Sam's a superman
Always does the best he can
People think he's just a fool
But I know better now
