

I Believe In You

Christie

I was thinking about
The things that you said
They were spinning around
Inside my head

I'm not one to criticise
You know that it's true
I just hope you realise
I believe in you

We were talking about
The time in between
And the ways of the world
And the love we had seen

You tell me we must hang on
Fate will see us through
Please don't prove me wrong because
I believe in you

We were talking about
The time in between
And the ways of the world
And the love we had seen

I'm not one to criticise
You know that it's true
I just hope you realise
I believe in you
