## Bluebird

## **Christina Perri**

How the hell does a broken heart Get back together when it's torn apart And teach itself to start beating again

This little bluebird Came looking for you I said that I hadn't seen you In quite some time!

This little Bluebird She came looking again I said we weren't even friends She could have you

Don't you think it was hard, I didn't even say that you died But it wouldn't have been such a lie 'Cause then I started to cry

This little bluebird Sure won't give it a rest She swears that you may be Better than all the rest I said no no no You've got it all wrong If he was something special I wouldn't have this song

Don't you think it was hard, I didn't even say that you died But it wouldn't have been such a lie 'Cause then I started to cry

How the hell does a broken heart Get back together when it's torn apart Teach itself to start beating again

What if when she comes over I am in your arms Taking all I want from you again Ba ba ba ba, ba ba ba ba ba

How the hell does a broken heart Get back together when it's torn apart Teach itself to start beating again

How the hell does a broken heart Get back together when it's torn apart Teach itself to start beating again Beating again

This little bluebird Don't come 'round here anymore So I went looking for her And I found you
