

And That's Saying a Lot

Christine McVie

Baby I love you
I never said this before but
Baby I love you
I'm a woman of very few words
And that's saying a lot

I'd never been in love before
Until the day you knocked on my door
Things began to happen to me that never happened before
I go for what you've got
And that's saying a lot

All I can sing is ooh baby I love you

I just say ooh baby I love you
I've got a song in my heart for you and I sing it all the time
And that's saying a lot

Some day some way I'll make it all up to you
And I'll say all the words that you want me to say
But I'm a woman of very few words
And that's saying a lot
And that's saying a lot
