

# I Want You

Christine McVie

I've been trying hard to get to you  
But it seems that you don't want to be got to  
Baby, baby, baby I could make you feel good  
Let me whisper in your ear so it's understood

I want you I want you I want you

Honey I know it's our first time together  
And I don't mind playing your funky game  
Baby I'm having a hard time to get myself together  
Let me come right out and say it plain
