

Moments

Christopher

Please don't say a word
'Cause they all have been said now
Like a journey coming to an end
You say
Let it run like the river
Wild and without a care
Just like the days, we were young and fumbling

Everything fades away
Let it go by with a flow
Really wish I could stay, but you know me

All the moments we shared
Are not going anywhere
Never quite understood it when you told me

Just close your eyes
And I be right by your side
'Cause memories don't say goodbye

Everywhere I go
You are always there with me
And I was always scared to face the truth

Now I'm still
Waiting right here for you
To hold you in my arms again
Just like the days, we were young and fumbling

Everything fades away
Let it go by with a flow
Really wish I could stay, but you know me

All the moments we shared
Are not going anywhere
Never quite understood it when you told me

Don't go easy into the good night
A part of me always be with you
And I'm never gonna let you go from my heart
Just close your eyes I'm by your side
'Cause memories don't say goodbye

Ooh everything fades away
Just go with the flow oh you know me

All the moments we shared
Are not going anywhere
Never quite understood it when you told me

Just close your eyes
And I be right by your side
