

Dream Vacation

Romano, Carlson Christy

I'm cutting school today
I'm gonna get away
I'm leaving now to precise
Don't that sound nice
In a place warm and breezy
A little piece of paradise

Dream Vacation
Its summer time and were having fun
Dream Vacation
Its party time for everyone

Living hour outside
Splashing in the oceans tide
Or just relaxing in the sun
And now were gonna spend
Sometime with our new friend
Who knows just might be the one

Dream Vacation
Its summer time and were having fun
Dream Vacation
Its party time for everyone

Walking on the beach at night
Holding hands it feels right
Looking for a shooting star
Break up that guitar

(I wanna dream vacation)

Dream Vacation
Its summer time and were having fun
Dream Vacation
Its Party time for everyone

Dream Vacation
Its summer time and were having fun
Dream Vacation
Its party time for everyone

Dream Vacation
Summer time and its just begun
Dream Vacation
Summer time and were having fun
