

## Blue Girl

### Chromatics

Blue girl  
Don't hate the world  
Your friends will never understand  
What it's like for us

Blue bird  
Don't say a word  
Your voice will never be heard  
In this endless night

They never understand  
They never understand  
They never understand  
Why we say goodbye

Blue girl  
Don't make a scene  
Your eyes say more than they mean  
Under flashing light

Blue one  
Don't come undone  
Make your place inside the sun  
And leave this broken world

They never understand  
They never understand  
They never understand  
Why we say goodbye

They never understand  
They never understand  
They never understand  
Why we say goodbye

Blue girl  
There's nothing wrong  
There's somewhere I know we belong  
But it's not this town

Blue thing  
They pull the string  
They think they own everything  
Don't let it get you down
