

Closer To Grey

Chromatics

Summer skin
Faded now
Rhythm blocks the lights out
In a dream
Fever breaks
Reaching for the water
You say the world is raining colors
I see you're standing close to grey
You say you'll never kiss another
I see you're running far away

Summer skin
Faded now
Can't seem to remember
Days go by
Chasing nights
Nothing lasts forever
You say the world is raining colors
I see you standing close to grey
You say you'll never kiss another
I see you running far away

Summer skin
Faded now
Touch the sound of silence
Hazel eyes
Full of tears
Searching for the summer
You say you'll never kiss another
I see you standing close to grey
