

I Can Never Be Myself When You're Around

Chromatics

Baby
I'm not the same me
I can never be myself
When you're around

Baby
It's not a new thing
All the dreams we had
Were more than what we found

We live just to love
Getting lost on our own
& we tell all our lies
As our hearts turn to stone

Baby
It's not that easy
I can never be myself
When you're around

Baby
Was it all for nothing?
We try to reach so high
But still we hit the ground
