

Just Like You

Chromatics

He looks just like you,
He even says the same things
He's always hanging upside down

He looks just like you,
He even wears the same clothes
In winter, summer comes around
Ooh oh oh
Ooh oh oh

Back in Paradise,
It's like another country
If they could only see you smile
Nobody watches us
Deep inside a death machine maze
They're trying to make it through the night
Ooh oh oh ooh oh oh
Ooh oh oh ooh oh oh

He looks just like you,
He even says the same things
He's always hanging upside down
In 1995, he even wears the same clothes
He says he's going underground
Ooh oh oh

[instrumental break]

Ooh oh oh ooh oh oh

(2x)

He looks just like you
He even loves like we used to
He looks just like you
He even loves like we used to
