

You're No Good

Chromatics

I know you're no good, no
But I can't stay away from you
I know you're no good, no
But I can't stay away from you

That's all we ever do
That's all we ever do, oh-oh
That's all we ever do
That's all we ever do, oh-oh

Ever do, ever do, ever do
Ever do, ever do, ever do
Ever do, ever do, ever do
Ever do, ever do, ever do

We sleep until the sun goes down
We watch the nightfall on the ground
And are we all alone

I know you're no good, no
But I can't stay away from you
I know you're no good, no
But I can't stay away from you

You, you, you
I can't stay away from you
You, you, you
I can't stay away from you

They close their eyes and touch the flame
Wonder why
Seeking shelter from the rain
Don't you cry
(Are we all alone?)

Tears like satin
Felt before
Thirsty vampires
Costing more
(And are we all alone?)

I know you're no good, no
But I can't stay away from you
I know you're no good, no
I can't stay away from you

From you, from you
I can't stay away from you
From you, from you
I can't stay away from you
From you, from you
Ooh-ooh, ooh-ooh
From you, from you
Ooh-ooh, ooh-ooh

Stay away, stay away, stay away
Stay away, stay away, stay away

Stay away, stay away, stay away
Stay away, stay away, stay away
Stay away, stay away, stay away
Stay away, stay away, stay away

You, you, you
You, you, you
