

# Eyes Wide Open

Chronic Future

It's like taking your medicine  
Admitting the relevance  
Of every experience  
You're thanking the elements  
In all their appearances  
Isn't life just the clearest when  
You face interferences with an aim for fearlessness

With eyes wide open it can be so hard to live in this world today  
But if you close them you just might miss out  
And life will pass you by

You know that  
Things will never change  
And your life will  
Always stay the same

Eyes open  
Eyes shut

I need some memory loss  
Tell me what's that gonna cost?  
If it has to do with attitude I'll pack up and get lost  
I'm having second thoughts on going through with this  
I should say screw this shit close my eyes and get used to it

Unchanged  
Don't waste your life away

Blankness with an over anxiousness  
To erase this you must be courageous  
Just to face what gives you knots in your stomach  
And once you've done it  
You're gonna love it  
Getting up there and being above it
