

# Static On The Radio

Chronic Future

What's that song on the radio  
It's been so long since I've heard a song that I want to know  
Every word and every note  
What's that song on the radio  
Tune me in just this once  
Tune me in just this once  
Cause there's too much

Static on the radio

I could easily write by avoiding verdicts and judgements  
But then I wouldn't be the one hanging myself over one wish

What's that song on the radio  
It's been so long since I've heard a song that I want to know  
Tune me in just this once  
Tune me in just this once  
Cause there's too much

Static on the radio

What is it that makes artists feel that  
Lack of focus is appropriate  
And is accepted as an art form  
Please wake up

What's this song on the radio  
It's been so long since I've heard a song that I want to know  
Tune me in just this once  
Tune me in just this once  
Cause there's too much

Static on the radio
