

# Whirlwind

## Chronic Future

Helping one another  
In some strange way would  
Give me a reason  
To believe that you and I could  
Possibly  
Maybe  
Help balance each other out  
And as weird as that seems  
I'm beginning not to doubt

Spinnin' me 'round  
(Spinnin' me 'round)  
Shakin' me down  
(Shakin' me down)  
Spinnin' me 'round  
(Spinnin' me 'round)  
Shakin' me down  
(Shakin' me down)  
You're just like the whirlwind  
Spinnin' me 'round  
Tossin' and turnin'  
And shaking my world around

Gained a purpose  
And I'm at  
The end of that long road  
Start another  
Party brother  
I'll carry my load  
You don't need to meet me  
In the middle anymore  
And stop looking down on me  
Am I level with floor?

Spin us around  
(Spinnin' me 'round)  
Shakin' me down  
(Shakin' me down)  
Spinnin' me 'round  
(Spinnin' me 'round)  
Shakin' me down  
(Shakin' me down)  
You're just like the whirlwind  
Spinnin' me 'round  
Tossin' and turnin'  
And shaking my world around

You're just like the whirlwind  
Spinnin' me 'round  
Tossin' and turnin'  
And shaking my world around

Tossin' and turnin'  
And shaking my world around

Tossin' and turnin'  
And shaking my world around

Tossin' and turnin'  
And shaking my world around

Tossin' and turnin'  
And shaking my world around

You're the one with problems  
You egomaniac  
Your planet's revolving  
Without a fuck  
Call me back  
Skipped outta sight  
Not miss one thing  
Never will be  
You're the part of myself  
That I hate  
But you're still me

You  
(You)  
Try to define  
(Try to define)  
That part of me  
(That part of me)  
That can't be seen  
(That can't be seen)  
I'm calling you out  
(I'm calling you out)  
Accepting that we  
(Accepting that we)  
Respond, call me back  
(Respond, call me back)  
You're all done to me  
(You're all done to me)

You're just like the whirlwind  
Spinnin' me 'round  
Tossin' and turnin'  
And shaking my world around

You're just like the whirlwind  
Spinnin' me 'round  
Tossin' and turnin'  
And shaking my world around
