

## Quasi Putrefaction

Chthonic

Seasons cycles, though the I'll winds  
Bitingly strong, Seediq spirit diminish not  
Ever changing colors of invaders  
Affects not the permanent gloom  
Of souls manifesting on mountain peaks  
The Bridge waits, native eternality beyond  
Mountain zephyrs rides into the forest  
A hunting pipe heard over burbling springs  
Reminding of ancient warnings puissant  
The roar of Warrior-God Rudao Mona  
Blizzard winds howl, cycles pass, winters cold,  
Death cools not the fervent Seediq passion.  
Ever changing colors of foreign flags  
Affects not the whitened evergreen trees  
Souls twine with falling leaf petals  
Carpets Ancestors' bridge in preparation  
Mahe cliffs towers thousand-height high,  
Resting place of Rudao Mona
